25×1×	2.	In early October, a red stripe was observed on the tail assemblies of two U-MiG-15s It could not be determined whether the wings also had a colored marking <
	3.	At 8 p.m. on 25 September, no lights were in operation at the field or were the quartering buildings and the guardhouse lighted. At 9:30 a.m. on 12 Oc-
		tober, no soldiers, aircraft or sentries were observed at the field. The guard- house was closed. At 8:40 p.m. the guardhouse was lighted and the gate was illu- nimated by searchlights. Many single-story buildings in the southern portion of
		the field were lighted. At the eastern edge of the field which was not illuminated, a rotating serachlight was in operation.
25X1A	1.	Comment. Brand airfield is occupied by a fighter regiment which is equipped with 30 to 35 MiG-15s. In early August 1953 the regiment transferred from Alt-Loennewitz to Brand.
25X1A	2.	Comment. Similar observations have been reported from Jueterbog airfield. The meaning of the markings have not yet been determined.
25X1A	3.	Comment. At that time, no change in the occupation of the field was determined
25X1A	. 4.	Comment. Since 8 October, elements of the regiment stationed at Brand moved to Erfurt-Bindersleben airfield to participate in exercises of the Fighter Division Merseburg. The ground personnel of the regiment remained in Brand.
